***XRC Medical Imaging Receives ACR Accreditation***

**SOUTH BEND, Ind.** — XRC Medical Imaging (XRCMI), northern Indiana’s first choice for diagnostic imaging services, has been awarded a three-year term of accreditation in PET-CT scanning and stereotactic breast biopsy, as the result of a recent survey by the American College of Radiology (ACR).

The ACR, headquartered in Reston, Virginia, awards accreditation to facilities for the achievement of high practice standards after peer-review evaluation of the practice. Evaluations are conducted by board-certified physicians and medical physicists who are experts in the field. They assess the qualifications of the personnel and the adequacy of the facility’s equipment. The surveyors report their findings to the ACR’s Committee on Accreditation, which subsequently provides the practice with a comprehensive report.

The ACR is a national organization serving more than 32,000 diagnostic and interventional radiologists, radiation oncologists, and nuclear medicine and medical physicists with programs focusing on the practice of medical imaging, radiation oncology and the delivery of comprehensive health care services.

XRCMI is also accredited by the ACR in CT scanning, ultrasound, mammography and breast ultrasound. The ACR has also designated XRCMI as a *Breast Imaging Center of Excellence*. Call XRCMI at 574-243-0100 with any questions or visit [www.xrcmi.com](http://www.xrcmi.com).

**About XRC Medical Imaging**

*XRC Medical Imaging, LLC (XRCMI), is a division of X-Ray Consultants, Inc., a private radiology practice consisting of 16 radiologists. X-Ray Consultants has practiced in the Michiana area for over 50 years, providing professional radiology services to regional hospitals. Above all else is XRCMI's hallmark of providing exceptional customer service.
